HOW TO MEASURE

MEASURING SHIRTS

METHOD FOR MEASURING SLEEVE LENGTH

1. Place tape measure centre back of collar
2. Run tape across top of shoulder to shoulder point
3. Re-grip tape to hold at shoulder point
4. Continue measurement down arm
5. Finish at a point a little longer than wrist joint where hand widens

METHOD FOR MEASURING NECK CIRCUMFERENCE

1. Place tape at collar position with start end at centre front
2. Grip at overlap but place two fingers between tape and neck (having fingers inside increases circumference from snug to a comfortable fit level)
3. Measure off circumference on tape to the next highest centimetre
4. This will be between 37cm and 50cm – our largest neck size
